1/ Dear @elonmusk. The perfect troll is one where people don't know whether it is a troll or not. Your recent poorly informed criticism of #bitcoin + support for Doge may be the perfect troll...or you might actually believe this (God I hope not).

Elon, while the thread is a bit adversarial in it's tone, it does have its truth in that Dogecoin is orders of magnitude more centralized in both terms of node count and supply distribution than existing cryptos like Bitcoin, people will lose money when these whales dump

Bitcoin is actually highly centralized, with supermajority controlled by handful of big mining (aka hashing) companies.

A single coal mine in Xinjiang flooded, almost killing miners, and Bitcoin hash rate dropped 35%. Sound “decentralized” to you?
